

National Parks Action Fund Congressional Scorecard

Introduction

Americans across the country have been celebrating the National Park Service centennial this year. Record crowds are flocking to America's more than 400 park sites, enjoying the outdoors at places like the Grand Canyon and Everglades, and learning about our shared culture and history at places like Gettysburg and Stonewall.

But despite everything there is to celebrate, there has never been a more critical time for our national parks. Due to years of neglect by too many members of Congress, our parks need billions of dollars in repairs and more rangers to care for them. While neglecting parks' funding needs, many in Congress are actively working to prevent protections for park waterways and wildlife and to hamper our ability to preserve new places for future generations.

It's easy for members of Congress to say they love national parks, particularly those in or near their own districts and states, but the decisions lawmakers make in Washington have profound effects—both directly and indirectly—on all national parks. Ultimately, when it comes to their work in Washington, does a member's rhetoric match their record?

National Parks Action Fund's 2016 Scorecard assesses members of the 114th Congress, scoring them on key votes concerning park funding, important preservation tools like the Antiquities Act, and protections for water and wildlife.

Americans care deeply about national parks, and believe they deserve the best protection possible. It is the job of members of Congress, who represent the American people, to ensure parks are well funded and that laws protect them. Here's how your representatives in Congress voted in this session.

Methodology

Selection Criteria:

National Parks Action Fund used the following selection criteria to determine which votes to include in the scorecard:

- Bill or amendment would directly impact national parks, their visitors, wildlife and/or other natural resources
- Bill or amendment received a recorded roll call vote on the Senate or House floor
- Timing of votes span 114th legislative session

The Action Fund, affiliated with National Parks Conservation Association (NPCA), based its stance on each vote using the position statements of NPCA. For more information on those position statements, please visit: <https://www.npca.org/policy>.

Calculating Scores and Ratings:

Scores are calculated by dividing the number of pro-parks votes cast by the total number of Action Fund-scored votes taken, with all votes weighted equally. If a member was absent or did not vote on a scored vote, that vote did not count toward their total number of votes taken. Members of Congress are only eligible for a rating if they voted on more than half of those scored.

All members of Congress received a rating from A-F based on the percentage of pro-parks votes they took.

Rating Scale: 95%-100% = A | 80%-94% = B | 65%-79% = C | 51%-64% = D | 0%-50% = F

SENATE KEY VOTES

1

Limiting the Designation of New National Monuments

Senator Deb Fischer (R-NE) introduced Amendment #18 to S. 1, the Keystone XL Pipeline Approval Act, which would stall and create obstacles for providing the best protection for our national park sites. It would create barriers to adding enhanced protections for historic sites, rivers, cultural artifacts, wildlife habitat and places for recreation. On January 22, 2015, the Senate rejected the amendment with a vote of 54-45, one senator did not vote (60 votes needed for passage, Vote No. 14). **A vote against the measure is the pro-parks vote.**

2

Preserving Natural, Cultural, Historic and Recreational Heritage

Senator Richard Burr (R-NC) introduced Amendment #92 to S. 1, the Keystone XL Pipeline Approval Act, which would permanently reauthorize the Land and Water Conservation Fund (LWCF). LWCF is a bipartisan, economically important and wildly popular land conservation program driven by willing sellers of private land to better protect and enhance recreation and preservation opportunities on our public lands. On January 29, 2015, the Senate rejected the amendment with a vote of 59-39, two senators did not vote (60 votes needed for passage, Vote No. 43). **A vote in favor of the measure is the pro-parks vote.**

3

Selling or Transferring National Park System Land

Senator Lisa Murkowski (R-AK) introduced Amendment #838 to S.Con.Res.11, the Fiscal Year 2016 Budget Resolution, which would allow for the sale, transfer or exchange to state and local governments any federal land within the National Park System not designated as a national park, national monument or national preserve. If agreed to, this provision would allow the hand out or sale of some of our most hallowed lands—National Battlefields, National Military Parks, National Memorials—and places where millions of Americans recreate every year—National Lakeshores, National Recreation Areas and National Seashores. On March 3, 2015, the Senate agreed to the amendment with a vote of 51-49 (Vote No. 106). **A vote against the measure is the pro-parks vote.**

4

Blocking Designations of New National Monuments

Senator Mike Lee (R-UT) introduced Amendment #3023 to S. 2012, the Energy Policy Modernization Act, which would block the designation of new national monuments through the Antiquities Act. Sixteen presidents of both parties have designated 151 national monuments under this authority at times when Congress was unwilling or unable to act quickly to protect irreplaceable national treasures. This amendment would significantly limit the president's authority and would make national monument designations temporary. On February 2, 2016, the Senate rejected the amendment with a vote of 47-48, five senators did not vote (60 votes needed for passage, Vote No. 10). **A vote against the measure is the pro-parks vote.**

SENATE KEY VOTES

5

Limiting Funding for Land Acquisition Program

Senator James Lankford (R-OK) introduced Amendment #3210 to S. 2012, the Energy Policy Modernization Act, which would limit funding through the LWCF when there are maintenance backlogs on federal land. This amendment would undermine a successful, popular and bipartisan land acquisition program without actually addressing deferred maintenance backlogs. On April 19, 2016, the Senate rejected the amendment with a vote of 34-63, three senators did not vote (60 votes needed for passage, Vote No. 50). **A vote against the measure is the pro-parks vote.**

Notes:

A pro-parks vote is shown as a '✓' symbol and an anti-parks vote is shown as a '✗.' If a member was absent or did not vote on a scored vote, that is shown as a '?' and does not count towards their total number of votes taken or their overall score.

Senators are only eligible for a rating if they voted on more than half of the votes scored.

The Senate determines the rules for passage for each vote. The chamber can decide whether a vote requires a simple majority, more than 50 percent of those present voting in favor, or a supermajority, a 60-vote threshold in favor under a unanimous consent agreement. Votes #1, #2, #4, and #5 required a 60 vote supermajority, vote #3 required a simple majority.

HOUSE KEY VOTES

1

Limiting the Designation of New National Monuments

Representative Crescent Hardy (R-NV) introduced an amendment to H.R. 2822, the Department of the Interior, Environment and Related Agencies Appropriations Act, which would block the designation of new national monuments through the Antiquities Act in specific western counties. Sixteen presidents of both parties have designated 151 national monuments under this authority at times when Congress was unwilling or unable to act quickly to protect irreplaceable national treasures. This amendment would significantly limit the president's authority under the Antiquities Act. On July 8, 2015, the House agreed to the amendment with a vote of 222-206, five members did not vote (Roll Call No. 409). **A vote against the measure is the pro-parks vote.**

2

Preventing Mining Runoff in National Park Waters

Representative Raúl Grijalva (D-AZ) introduced an amendment to H.R. 2822, the Department of the Interior, Environment and Related Agencies Appropriations Act, which would allow for the Department of the Interior's Office of Surface Mining Reclamation and Enforcement (OSMRE) to complete revisions on the previous administration's regulation that opened up streams to damaging and polluting practices of surface coal mining. A number of national parks are downstream from surface mining and would be at risk without revisions to the regulation. On July 8, 2015, the House rejected the amendment with a vote of 189-239, five members did not vote (Roll Call No. 397). **A vote in favor of the measure is the pro-parks vote.**

3

Allowing Mining Runoff in National Park Waters

Representative Alex Mooney (R-WV) introduced H.R. 1644, Supporting Transparent Regulatory and Environmental Actions in Mining Act, which would upend years of work protecting waters in national parks across the Southeast. The bill would prohibit OSMRE from completing revisions on the previous administration's regulation that opened up streams to damaging and polluting practices of surface coal mining. On January 12, 2016, the House passed the bill with a vote of 235-188, 10 members did not vote (Roll Call No. 42). **A vote against the measure is the pro-parks vote.**

4

Protecting Fragile Coastal Park Ecosystems

Representative Don Beyer (D-VA) introduced Amendment #8 to H.R. 2406, the Sportsmen's Heritage and Recreational Enhancement Act, which would remove damaging language in the underlying bill that strips the National Park Service (NPS) of its legal authority to protect park resources. The amendment would allow the NPS to retain its authority to institute commercial or recreational fishing access restrictions in coastal and Great Lakes park waters. On February 26 2016, the House rejected the amendment with a vote of 169-236, 28 members did not vote (Roll Call No. 94). **A vote in favor of the measure is the pro-parks vote.**

HOUSE KEY VOTES

5

Eliminating Protections for Wildlife in Alaska

Representative Don Young (R-AK) introduced Amendment #15 to H.R. 2406, the Sportsmen's Heritage and Recreational Enhancement Act, which would withdraw a completed NPS regulation and prevent the finalization of a similar U.S. Fish and Wildlife Service regulation on non-subsistence hunting in national preserves and wildlife refuges in Alaska. The regulations prohibit aggressive sport-hunting practices, like spotlighting denning bears and cubs, that harm wildlife in these protected areas. On February 26 2016, the House agreed to the amendment with a vote of 236-169, 28 members did not vote (Roll Call No. 98). **A vote against the measure is the pro-parks vote.**

6

Protecting Future Designations of New National Monuments

Representative Raúl Grijalva (D-AZ) introduced Amendment #41 to H.R. 5538, the Department of the Interior, Environment and Related Agencies Appropriations Act, which would strike a section in the underlying bill that would block the designation of new national monuments through the Antiquities Act in specific counties across the country. Sixteen presidents of both parties have designated 151 national monuments under this authority at times when Congress was unwilling or unable to act quickly to protect irreplaceable national treasures. This amendment would significantly limit the president's authority under the Antiquities Act. On July 13, 2016, the House rejected the amendment with a vote of 202-225, six members did not vote (Roll Call No. 437). **A vote in favor of the measure is the pro-parks vote.**

7

Cutting Park Funding

Representative Marsha Blackburn (R-TN) introduced Amendment #43 to H.R. 5538, the Department of the Interior, Environment and Related Agencies Appropriations Act, which would institute a 1 percent funding cut across all programs in the bill. Years of underfunding by Congress has forced rangers to care for parks on shoestring budgets; an additional cut would further hinder rangers and staff from caring for our parks and visitors. On July 13, 2016, the House rejected the amendment with a vote of 171-258, four members did not vote (Roll Call No. 438). **A vote against the measure is the pro-parks vote.**

8

Intervening in Cooperative Chesapeake Bay Restoration Program

Representative Bob Goodlatte (R-VA) introduced Amendment #57 to H.R. 5538, the Department of the Interior, Environment and Related Agencies Appropriations Act, which would stop the multi-agency restoration program that is working to reduce pollution in the Chesapeake Bay, home to 55 national park sites. Agencies at the local, state, and federal levels have been working tirelessly to clean up the Bay and its watershed and cannot afford to be derailed by this amendment. On July 13, 2016, the House agreed to the amendment with a vote of 231-197, five members did not vote (Roll Call No. 446). **A vote against the measure is the pro-parks vote.**

HOUSE KEY VOTES

9

Limiting Recovery of Listed Endangered Species

Representative Doug Lamborn (R-CO) introduced Amendment #67 to H.R. 5538, the Department of the Interior, Environment and Related Agencies Appropriations Act, which would substantially impact the recovery of listed endangered species. This amendment would leave many species, including those that live on national park land, in a state of limbo as they would retain their listed status but no federal funding would be provided for recovery or law enforcement efforts. On July 13, 2016, the House agreed to the amendment with a vote of 238-190, five members did not vote (Roll Call No. 449). **A vote against the measure is the pro-parks vote.**

10

Impeding Recovery of the Gray Wolf

Representative Dan Newhouse (R-WA) introduced Amendment #73 to H.R. 5538, the Department of the Interior, Environment and Related Agencies Appropriations Act, which would impede recovery efforts for the gray wolf throughout the United States. Gray wolves are critical for biodiversity in national park ecosystems and they often seek sanctuary in national park lands. Visitors' top activity in national parks is wildlife viewing—wolves are among their favorite to see. On July 13, 2016, the House agreed to the amendment with a vote of 223-201, nine members did not vote (Roll Call No. 452). **A vote against the measure is the pro-parks vote.**

11

Eliminating Park, Wildlife and Resource Protections

Representative Ken Calvert (R-CA) introduced H.R. 5528, Department of the Interior, Environment and Related Agencies Appropriations Act, which, while increasing funding for NPS, would weaken protections for national park air, water and wildlife. These natural resources are what make millions of visitors flock to parks year after year. This bill, full of damaging policy provisions, would harm the very qualities that make national parks our national treasures. On July 13, 2016, the House passed the bill with a vote of 231-196, six members did not vote (Roll Call No. 477). **A vote against the measure is pro-parks vote.**

Notes:

A pro-parks vote is shown as a '✓' symbol and an anti-parks vote is shown as a '✗'. If a member was absent or did not vote on a scored vote, that is shown as a '?' and does not count towards their total number of votes taken or their overall score.

Members of Congress are only eligible for a rating if they voted on more than half of the votes scored.

John Boehner (R-OH), Chaka Fattah (D-PA), Michael Grimm (R-NY) and Aaron Schock (R-IL) resigned from office without casting the requisite number of votes to receive a rating.

Alan Nunnelee (R-MS) and Mark Takai (D-HI) passed away while in office without casting the requisite number of votes to receive a rating.

Madeleine Bordallo (D-GU), Eleanor Holmes Norton (D-DC), Stacey Plaskett (D-VI), Amata Radewagen (R-AS), Gregorio Sablan (D-NMI) and Pedro Pierluisi (D-PR) are non-voting delegates so therefore are ineligible for a rating.
